

STATE-SPECIFIC Legislative Reporting Services

State Net provides comprehensive, timely and reliable legislative reporting. Manage information from one, two or all-50 states, with powerful tools designed for government affairs professionals.

► How you benefit from State Net's services:

- **Identify** bills that impact your organization using State Net's SmartSearch technology: proprietary issue-based indexing combined with full-text searches.
 - Results for full bill text searches display just those paragraphs in which your key term appears. You save hours of time—it takes just minutes to read your issues in context.
 - State Net's exclusive issue-based search tool further ensures that you will see all legislation that impacts your organization.
- **Monitor** legislation that is vital to your organization with Private Bill Tracking Files. Use our exclusive client-defined Headings & Tags feature to maintain your program-specific information.
- **Produce** status and calendar hearing reports on your bills with ease. Customize search and display options for your reports with a click of a button.
- **Rely** on information gathered and checked for accuracy by the most experienced staff in the industry.
