statenet.com

How State Net works with you to build your iTrac site:

1. Analyze the needs of your audience.
2. Determine priority issues
3. Select iTrac modules
4. Publish and publicize your site

Customized²

1. You customize the modules on your iTrac site.
2. Your audience customizes reports to meet their unique needs.

Information Modules

Legislation

- Every bill introduced in all 50 states, Congress, and the District of Columbia screened by State Net’s policy experts for relevance to your issues
- Full text (all available versions)
- Sponsor information
- Bill summaries, complete history and current status

Regulations

- Proposed and adopted state, federal and District of Columbia regulations
- Summaries written by State Net analysts
- Full text, regulatory hearing schedules and Agency contact information
